

PRODUCT OUTCOME IMPACT

HOME TESTING KITS ARE HANDED OUT TO COMMUNITY MEMBERS (ONE PER HOUSEHOLD) WITH A SIMILAR PURPOSE AND DELIVERY AS COVID LFT KITS. HOWEVER, THIS KIT IS NOT SINGLE USE.

DUE TO FUTURE TECHNOLOGY DEVELOPMENT THAT IS AVAILABLE IN 2031, THESE KITS ARE ABLE TO TEST AND TRACE A WIDER VARIETY OF INFECTIONS, ILLNESS, DISEASES AND BACTERIAS.

WHEN THE HOUSEHOLD HAS BEEN TESTED, WHICH SHOULDN BE DONE ON A REGULAR BASIS, THE INFORMATION/DATA WILL THEN BE LOADED TO A MAIN NETWORK, LIKE HOW LFT RESULTS ARE REGISTERED. THIS WILL THEN ALLOW FOR LOCAL AND GLOBAL INFECTION MAPPING TO BE CREATED. THIS WILL THEN ALLOW FOR ANY ISSUES TO BE FLAGGED AND CAUGHT SOONER AND MANAGED MORE EFFICIENTLY AND EFFECTIVELY.

THIS AFFORDS PEOPLE TO GAIN A MORE CONTROL OVER THEIR OWN HEALTH AND ILLNESS MANAGEMENT. ADDING A PREVENTITIVE MEASURE BEFORE ILLNESSES SPREAD WHICH SHOULD THEN STOP ISSUES SUCH AS COVID 19 LOCKDOWNS HAPPENING AGAIN.

IT WILL ALSO ALLOW FOR PEOPLE TO BECOME BETTER EDUCATED ON MICROBE AND DISEASE HEALTH. LEARNING MORE ABOUT WHAT IS DANGEROUS OR A THREAT, WHAT ISN'T SO SERIOUS AS WELL AS HOW TO MAINTAIN A HEALTHIER AND CLEANER PERSON AND HOME.

HAVING AN OUTPUT LIKE DIGITAL DISEASE MAPPING WILL ALSO BE ABLE TO SHOW COMMUNITY MEMBERS DIRECTLY THE SEVERITY AND THE SPEED AT WHICH DISEASE AND ILLNES CAN SPREAD AS WELL AS WHAT THEIR OWN CONTRIBUTION TO SOCIETY IS.
